JOE HOLLO
jhollo@smacatholic.org

**NO EXPERIENCE NECESSARY!
WE'LL TRAIN YOU!**

We need students with a wide variety of interests, gifts and talents to participate on the robotics team. We need students who are interested in mechanical design, construction, programming, marketing, graphic design, outreach, creating videos, working with younger students to promote science and math, and more!

Students who participate in FIRST Robotics are eligible to apply for college scholarships that total over \$80 million!

PRACTICE & TOURNAMENTS

The big time commitment is from the 1st Saturday in January to the end of February. Each year the game for the robot is announced on the 1st Saturday in January; we then have 7 weeks to design, construct and test our robot.

The season tournament is at the end of February.

PARENT PARTICIPATION

We need parents' help also! Mentoring students, feeding students, helping with fundraising, etc.

There's a role for everyone!
